

N.N.C. WELCOMES YOU

N.N.C. Crusader

VOL. IX NO. 1 NORTHWEST NAZARENE COLLEGE, NAMPA, IDAHO SEPT. 21 1949

Freshmen Introduced to N. N. C.; 160 From 19 States Get Acquainted

More than 400 students turned out at the Get Acquainted party to introduce themselves and be introduced to the new members of our 1949-50 Freshmen class.

Fred Fowler, president of the A. S. B. was master of ceremonies and introduced the various specials. Dr. Corlett was called on for a word, and in turn introduced members of the faculty and Administration to the students. The Christ's Ambassadors Quartet sang two novelty numbers.

One of the highlights of the program was Hubert Hendricks who played and sang his "theme" song, "I Want a Buddy Not a Sweetheart." After a few get acquainted songs and games the program closed with refreshments for all.

Favorite Choruses

The windows of heaven are open,
The blessings are falling tonight;
There's joy, joy in my soul
Since Jesus made everything right.

I gave Him my poor tattered garment,
He gave me a robe pure and white;
I'm feasting on manna from heaven,
And that's why I'm happy tonight.

Everybody oughta go to Sunday School,
Sunday School, Sunday School;
The Seniors and the Juniors and the
Sophomores and the Freshmen;
Everybody oughta go to Sunday School.

Follow, I will follow Thee, my Lord,
Follow ev'ry passing day.
My tomorrows are all known to Thee
Thou wilt lead us all the way.

Improvements In Campus Spark Summer Activity

One of the first things that strikes the eye when walking into the Ad building is the brand-new tile flooring on the main floor. Vic President McGraw and Dean Culver have also received new tile floors, along with a portion of the business office.

That is just one of the many things that have been done this summer while we students were home taking our summer vacation.

Other improvements made in the Ad building are: Enlarged science department, all three halls redecorated, rooms 11 and 12 being newly sanded, and other minor improvements.

As a matter of fact, the whole campus has somewhat of a "new look." Did you notice the pretty flowers around the circle in front

(Continued on Page 2)

"TOUGHIE" MADE 1949.

Professor Tillotson's "Toughie," a fighting ram donated to him by a Freshman sculpture student last year, has been made mascot of the Freshman class of 1949-50 as a representation of the "push" that this year's students are going to show.

Library Changes To Benefit All Students

Expansion means change, and a library cannot give adequate service unless it has a gradual growth. Consequently, there are to be several changes in library policies this school year.

First of all, new stacks have been built in the west reading room. These are to accommodate part of the biography section and all of the history section. This means, of course, that all students will have the privilege of going to the stacks and selecting the books desired. However, if this plan is to work, it will be necessary for students to cooperate in two ways, specifically by NOT replacing books on the shelves, but rather by leaving them on empty shelves, and, by being checked when departing from the library. This will necessitate consideration on the part of the students so that everyone will not be leaving at the same time and thus cause congestion at the inside doors. Students should plan to leave five or ten minutes before the bell rings.

A second change aimed to benefit students is the difference in the time limit for two-week books. Books will become due only on Fridays. Technically, a book may be kept out for two weeks, but actually, it may be kept out for twenty days. For example, if a book is charged out on Saturday, September 17, it becomes due two weeks from the following Friday, or October 7th. This method, it is hoped, will eliminate the large number of overdues.

A third change is the new magazine racks in the east reading room. And last of all, a boon to those who work in the library, is the new work room which will facilitate the processes of getting books on the shelves and ready for use.

All these changes are advantageous and are planned with the welfare of the student in mind in the hope that the library facilities may become more convenient vehicles of learning on the road to knowledge.

Crusader Post Tryouts Set For 4 p. m. Friday

If you have had any experience in high school or college journalism and wish to take part in the editing of the 1949-50 Crusader, there will be a meeting in Room 12 at 4 p.m. Friday to determine who are capable and available for staff positions. Needed on the staff this year are photographers, reporters, columnists, editors, rewrite men, and other necessary positions.

In order to cover all departments, organizations and clubs of the college and high school it will be necessary to have the "cream of the crop" to put out a paper worthy of a Christian college. "We need you, you need us."

CHAPMAN CHAPS PLAN CHAPEL

Things are starting off with a BANG this year in Chapman Hall. A project for this semester is raising funds for the remodeling of the present prayer room. sound proof, will resemble a small chapel and is to be known as Christ's Chapel in Chapman Hall.

Donators are urged to give what they can as soon as they can to this worthy cause. Place your contributions in the tin box in the Coffee Shop or give to Dean Taylor, Dan Jackson or Jim Wolstenholm.

Responsibility of The Educated In These Times

By Dr. Thelma B. Culver

Men are responsible for performing the multitudinous functions in human society. It is obvious that the type of man which is most capable of carrying on the work of the world as well as of assuming social responsibility is the educated man.

It was the first Napoleon who said that the French Revolution meant "la carriere ouverte aux talents." James Russell Lowell called democracy that "fworm of society, no matter what its political classification, in which every man has a chance and knows that he has it."

There seems to be little need to labor the point that democracy, opportunity, the development of talents, and the leadership of the educated are closely related.

J. Hillis Miller, president, University of Florida, observes that the responsibility of the educated may be broken down into five specific functions. First, it is the duty of the educated to pass on the culture. Bresee expressed this attitude by saying, "I am debtor to give the gospel as I have received it." Secondly, it is the

GREETINGS FROM

Dr. Corlett
College Pres.

Fred Fowler
A. S. B. Pres.

The opening of school is a wonderful time to all the members of the Administration. We have the privilege of welcoming back the ones who have been here previously and the joy of seeing and meeting the new students. Our hearts rejoice that so many of you are privileged to attend the college and it is our sincere hope and desire that you will find here those things which you expect. Soon the newness and the strangeness will disappear and you

We extend cordial welcome to returning students, especially to the new students on the campus. We feel each of you should be congratulated, not only on your choice to continue your education, but also on your choice of schools. We covet your fellowship and want to be your friends. We hope that you will come to appreciate the traditions of the college and stand for the principles which it represents.

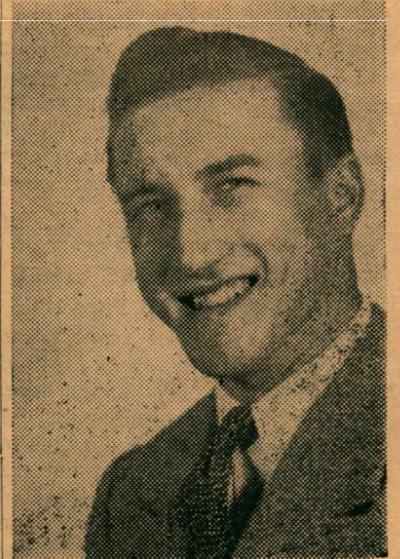

Many have been praying that

will feel that you are a part of the student body for this year.

Everything that we could do has been done to prepare for your coming and it is the desire of the Administration to help you in each and every one of your problems. Most of all, it is our desire that you will feel the great spiritual power Who is represented by an institution such as N.N.C. God put it on the hearts of people in the days gone by to start this institution and has led many others to carry it forward unto this good day. We hope that you will recognize that this is an institution where God is honored and that you will bring your life into harmony with His plan so that you will find, while you are here, the best things that this institution represents.

Each one of the administration and faculty joins in expressing appreciation for the fact that all of you are here and together we are looking forward to a very pleasant time during the school year.

this would be the best year N.N.C. has ever had, not for the sake of our "good works" but that our Father might be glorified and His Kingdom extended. It is essential for each of us to realize our task and do our part. After all, we are not here merely to prepare for a livelihood, but for service to the Master. What we do today will determine to a large degree what we will be tomorrow and the fruit we will bear in His Kingdom.

You will find that college life is not a "snap." In a sense it is a grind. Someone has said that life is like a grindstone; it depends on what you are made of whether it sharpens and polishes you or wears you away. However, by budgeting your time wisely you will find sufficient time for study and extra-curricular activities as well. Social, literary and athletic activities are planned that you may obtain a balanced, well-rounded education. Take advantage of them.

Regents to Shape School Policies For Year in Meeting This Week

Upon our campus for a few days is an important group of men whose decisions affect N. N. C. in many different forms. They are the Board of Regents, men elected from their various districts to represent our school in its educational zone.

Each year, twice a year, these gentlemen meet upon our campus to receive reports from the Administration upon what has been accomplished and what is to be accomplished. It is in their hands to decide the destiny and future of the college and to guide it through the years.

Our educational zone is composed of the following districts and their representatives: Idaho-Oregon, Rev. J. A. McNatt, Mr.

Roy Olmsted, Rev. Carl J. Kinzler, Rev. Albert Neuschwanger, Rev. Melza H. Brown; Nevada-Utah, Rev. R. B. Sherwood; North Dakota, Rev. H. F. Taplin, Rev. E. E. Kunkel; Northwest, Rev. E. E. Zachary, Rev. Milo Arnold, Rev. J. G. Taylorson, Mr. Eugene Weber, Rev. Carl Lindbloom; Oregon - Pacific, Dr. W. W. Hess, Rev. Ira Dumas, Mr. Gordon Olsen, Mr. T. S. Wiley; Minnesota, Rev. Arthur Morgan, Rev. George Mowry; Rocky Mountain, Rev. A. L. McQuay, Rev. A. F. Harris; South Dakota, Rev. W. H. Deitz; Washington - Pacific, Dr. B. V. Seals, Rev. Paul Thoreen, Rev. H. S. Palmquist; and the Alumni Representative, Rev. Paul Mangum.

When in Rome . . .

In ancient Rome, a frame-up was a frame-up proper. When sentenced to the lion's pit the victim was allowed a choice of two slips of paper. On one was written "yes" and on the other "no." If he drew "no" he was free. The catch was that both slips of paper nearly always were marked "yes" . . . which made for fat and contented lions in those days. Well, this fact was made known to a young political prisoner and he finally hit upon a solution. Sure enough, the next morning—to the amazement of his enemies and the consternation of a couple of lions that had already put their bids on—our hero went scot free. With both slips reading "yes" how did this young Roman manage to escape death? (See answer on page 2, but don't peek first)—TOPNOTCHER.

RESPONSIBILITY OF THE EDUCATED IN THESE TIMES

(Continued from Page 1)

responsibility of the educated to search for values. Religion and education must join hands here. Thirdly, it is the responsibility of the educated to make changes in the servant of man and not his master. Fourthly, the educated must furnish leadership. The question was once asked concerning the duty of a leader and the fine answer given was "A leader's duty is to lead." It must be a leadership well informed and highly inspired. Fifth, the educated must meet courageously and wisely the social crisis of the day.

COLLEGE HI REPORTS

The N.N.C. Grade School opened its doors September 12 with an enrollment of 75 children. The largest number is 21 in the first grade. Their teacher is Miss Ruth Angel, a graduate from N.N.C.

Miss Sylvia Edinger from the plains of Dakota is our new teacher in the upper grades. Her arrival on the second day of school to fill a last minute resignation made the administration happy again.

Improvements in the high school this year will include: new laboratory equipment for Biology and Physics; improved library facilities; a broadened curriculum with an enlarged faculty.

This year's staff: J. A. Feltar, Principal; Helen Wilson, English and Speech; James Hilliard, Math and Science.

Gwilet Larson, Physical Ed. and Science; J. B. Frazier, Physical Ed. and Science; Helen Clarke, English and French; Helen Waller, Typing and Shorthand; Carol Allen, Music.

Art Dep't Notes . . .

Professor Finkbeiner announces that a completely cataloged art library has been installed in the Art Department. Anything in the art line may be found in the new library, he said.

Other improvements that have been made are redecorated walls and painted floors. Along with the murals which have been painted on the walls it all has a new appearance.

June Tock has been named student assistant.

HAVE YOU HEARD THIS ONE ???

In ancient Egypt the figure 1 was represented by a vertical line, 10 by a horseshoe, 100 by a corkscrew, 10,000 by a pointing finger, 100,000 by a jumping frog, and 1,000,000 by a man with an astonished look on his face! (Science Digest).

Daffynitions

Civilization—An advance from shoeless toes to toeless shoes.

Criticism — Proof you have done something worth attracting attention.

Sense of Humor—What makes you laugh at something that would make you mad if it happened to you. (Coronet).

CAMPUS IMPROVEMENTS SPARK SUMMER ACTIVITY

(Continued from Page 1)
of the Ad building? Many hours were put in last spring by the students and Mrs. Riley in order to have these flowers for us this fall.

Moving along the campus we enter the Fine Arts building to find newly painted floors and redecorated walls. The dorms also had their share of improvements, Chapman and Morrison received almost new roofs while on the inside the floors were sealed and waxed. Going into the dining hall, which we will a couple of times a day, we find a partition built separating the dining room from the work room; the floors have received a new coat of paint, and the ceiling also received its share of cleaning and painting.

To top it off we end up in the coffee shop where we find brand new booths making it easier to take care of the many customers they have each day. But we mustn't forget to mention the Library, with its cleaned and shined interior and new book shelves in the wings and new reading cases. All in all, a fine job has been done all the way around.

AS YOU PLEASE . . .

We have all heard of the new prison chaplain who began his first service with, "Well, I am glad to see you all here this morning." Some of us may remember that story ironically after the strenuous regime of tests, questionnaires, and registration procedures we have been through in the last few days; or when it finally dawns on us that there are not a few requirements—scholastic, social, and otherwise here around N.N.C.

But we came to N.N.C. of our own choice and, above and beneath and around all of the rules and requirements, we will receive value in direct proportion to our free choice. As you please, you may receive limitless blessings, intellectual, social, aesthetic, practical and spiritual. As you please, within College rules, you may pass up many real values and go hungry in the midst of plenty.

All of this applies to religious life as well. College Church attendance, with certain exceptions, is required, but the real value of the total spiritual life around N.N.C. are yours only "as you please." As you please, you may be blessed in Prayer Meeting, fed in worship services, study in Sunday School, spread your wings in N.Y.P.S., pray with seekers around the altar, use your time and talents in a hundred ways for God and His glory. You will receive as you give—as you please.

We welcome you to College Church, your home away from home. We want you to feel at home and when the school year is over to return to your own home a stronger, more useful Christian. Ours is a large church because N.N.C. is a growing college and your experiences here will be something that you will never get away from.

In a few weeks now we hope to be in our new church, a place of worship for N.N.C. students for generations, if Jesus tarries. Meanwhile, look for the pastor's office in the Northwest Corner, he shall be happy to talk with you.

John E. Riley,
College Pastor.

Science Dep't Expands Courses

The science department is definitely beginning the expansion authorized by the Board of Regents at their meeting last year. Dr. A. R. Aller has joined the staff and has taken over his duties as head of the department. Mr. Ford who found it inadvisable to join the staff this fall is continuing his graduate studies in physics at Harvard University and expects to finish his work for his Ph. D. degree in time to come to N.N.C. next fall.

Considerable science equipment is being added this year. The physics department is securing about about eighty dollars worth of new apparatus while for chemistry a pair of analytical scales has been added.

Mr. Aller is loaning to the college approximately 700 herbarium specimens valued at about \$600.00. In the field of biology two rather definite lines are available for students wishing to major in the department. They are the pre-medic line and the natural history phase of biology. Two new upper division botany courses and one in ornithology are being offered this year. An

Music Faculty Is Increased

Alline Swann, Dean of the School of Music, announces the music faculty for the coming year as follows: Miss Carroll Allen, formerly a member of the faculty, is returning to N.N.C. after a year's graduate study at the University of Southern California. While at the University, Miss Allen was the student of George Hultgren, outstanding vocal professor at U.S.C. Among other things she had the honor of becoming a member of the Los Angeles A Cappella choir composed of select voices from the Los Angeles vicinity. She will be teaching advanced theory, voice, and directing the Academy Choir.

Mr. Charles Ross and Mr. Konstantin Epp, both of whom were connected with the music faculty last year, will be joining the faculty as full time professors this year. Mr. Ross is formerly of California where he is widely known for his outstanding solo performances. He has been the featured soloist in a number of vocal presentations in the Boise Valley. He will continue to be an instructor in private voice as well as conduct a class in vocal repertoire.

Mr. Konstantin Epp will continue his work at BJC this year, giving more time to NNC. He has studied and taught at Julliard School of Music in New York and holds a Master's Degree from Ohio State University. Mr. Epp was the oboist in the Columbia Symphony of New York. He will be instructor in theory, brass and woodwinds, and director of the college orchestra and band. Having Mr. Epp on our faculty will enable NNC to offer a Bachelor of Music degree with the major in brass and woodwinds.

Marriages Climax Campus Romances

Climaxing one, two or three year campus romances, the following decided to settle down and see if the old axiom were true that "two can live as cheaply as one." All the happiness in the world to them.

Edith Hensley and Paul Anderson, Roma Mitchell and Jack Jamison, Harold Thompson and Thelma Waller, Lucy Sturtevant and Johnny Loeber, Meryl Carrier and Pete Burkhart, Joanne Burkhart and Ronald Weatherford.

Helen Durbin and Wesley Lawrence, Millie Becker and Dean Wilson, Almeda Ballard and George Kolva, Donna Olmstead and Ray Shoemaker, Mary Atwater and Carl Bellamy.

Alberta Brown and Duane Mittelsteadt, Marcella Heberlein and Ray Springer, Rachel Shaw and Keith Gilbert, Viris Wilkins and Wendell Long, Mary Wesche and Paul Schwartz, Geneva Schramm and Dick Friesen.

additional biology laboratory is being provided in room 23 to take care of Dr. Rice's classes.

The physical sciences have not been overlooked in the expansion program. Mr. Emerson is offering two new courses in this field; namely a survey of the physical sciences, a freshman course designed for the general student, and physical chemistry, an upper course for chemistry majors. Mrs. Tillotson is offering analytic mechanics, a new upper division course.

SLAS Favored to Repeat Championship With All-Veteran Diamond Squad

Boys' intramural sports will get underway next week with the opening of the softball season and as usual the SLAs will ride in the favorite seat.

The defending champions will have returning veterans at every position as well as several promising freshmen to choose from.

They will have their ace, John Cramer in the pitcher's box with Charley Tolsen and Lloyd Hubbard to share receiving duties.

Butch Bloomquist and Don Farrand at first, Paul Jensen at second and Woody Beukelman at third give them the league's top infield.

The outfield will be chosen from Ed Hoffman, Merle Iles, Kenny Hills, Glen Wardlaw, Wayne Likens and Hubbard.

The ADPs may prove dangerous especially if Tiny Bellamy their hard hitting catcher can get back into top shape after the rigorous summer.

Other ADPs are Bill Jeffries, Dave and Doug Alexander, Loren Sanders, Howard Miller and Ralph Unger.

The Olys will have Glen Embree, Jack Jamison, Millard Reynolds, Fred Fowler, Whitey Johnson, Harold Long and Dean Gallaway back again.

For the LSPs there will be Catcher Jim Galloway, Pitcher Ben Shaver, infielders Lilburn Wesche, Willis Beers, Glen Hopkins and Doug Powers and outfielder Hubert Hendrix.

SPOUTIN' SPORTS

By Lilburn Wesche

Every new year brings forth new hopes, new ambitions, new goals, a new editor, a new sports column, but the same old writer. Whether all this is good or bad is entirely a matter of personal opinion but it all happens just the same.

In the athletic world, as is customary, all hearts are set on a victorious season regardless of how sad or forlorn the preceding seasons have been.

The Crusaders have John Cramer and Fred Fowler as spearheads for the coming year. With them as a nucleus NNC can be very tough to beat if their supporting cast will pass up grudges and start playing for keeps.

On the intramural slate softball moves out front with the opening games scheduled for next week, and as usual it probably will be the lucky SLAs heading the pack.

The defending champions who always manage to snare most of the outstanding newcomers through some quirk of the draw are two deep at practically every position giving them the edge in experience regardless of how the freshman drawing turns out.

Although the writer is not too well versed on girls and their athletic achievements they probably like everyone else, will have a great season. At least it sounds nice to say so.

We imagine that we'll be treat-

WANT AD

Wanted — Girls' Sports writer. Must have knowledge of sports, inside and out, mostly out. Ability to speak English desired but not essential. This is a matter of life and more life. Contact Sports Editor for further information or address written application to Crusader sports department and place in Crusader box at door of left wing entrance to Ad building.

ed to some more of those thrill-packed feminine pitcher's duels with one team squeezing past the other by a close 37-14 margin as fine defensive play highlights the occasion.

If you have never witnessed any of these low-scoring three inning dramas you had better show up. You never can tell some one is liable to make a putout one of these years and such a breathtaking event should be missed by no true sports fan.
